

# NSW Health is ensuring that students are safely vaccinated at school during COVID-19

## - Information for parents/guardians

NSW Health has been working with education authorities to implement additional measures to ensure that students in Year 7 and 10 can be safely vaccinated during the COVID-19 pandemic.

### Program background

In 2021 NSW Health is offering the following vaccines:

YEAR	VACCINE	NUMBER OF DOSES
Year 7	Human papillomavirus (HPV)	2 doses at least 6 months apart
	Diphtheria, Tetanus and Pertussis (dTpa)	1 dose
Year 10	Meningococcal ACWY	1 dose

### Additional measures

NSW Health has implemented additional measures based on expert clinical advice to reduce the likelihood of COVID-19 transmission in school clinics, including:

- health screening of nurses before clinics
- pre-vaccination screening of students
- physical distancing restrictions at the clinic entrance & observation area
- ensuring the number of students and nurses at the clinic does not exceed the maximum allowed
- enhanced hand hygiene by nurses and students
- enhanced environmental cleaning of all surfaces

### What parents/guardians should do

Parents/guardians should ensure that students with influenza-like symptoms do not attend school and are tested as soon as possible ([www.nsw.gov.au/covid-19/symptoms-and-testing](http://www.nsw.gov.au/covid-19/symptoms-and-testing)). There is no need for parents/guardians who have given consent for their child to receive vaccinations at school to take any action. Parents/guardians who have not provided consent can contact their local public health unit on 1300 066 055 or their school for advice on how to provide consent for vaccination.

### When students will be vaccinated

Public health units are arranging clinics with schools so that vaccinations can be given to students as soon as possible.

### More information

Information about school vaccination is available at [www.health.nsw.gov.au/schoolvaccination](http://www.health.nsw.gov.au/schoolvaccination)
